

ITALFORNI MIKRO 4 MP KILN 160 LT 1100C

Italforni Mikro 4 MP Electric Ceramic Kiln The Mikro 4 MP is a professional electric kiln with a capacity of 160 liters, ideal for workshops and institutions that need to carry out a significant number of firings each week. Perfect for firing ceramic, porcelain, stoneware, and glazes up to 1100°C. This model comes with an integrated floor stand for added stability and ease of use. **Main features:**

- 160-liter firing chamber made of high-quality refractory ceramic fiber.
- Digital temperature control via microprocessor.
- Ability to program up to 15 customized firing cycles.
- Each cycle can include up to 20 temperature and time stages.
- Real-time display of the active firing program.
- Automatic restart in case of power failure.
- Flag door with a viewing window to monitor the firing process.
- Internal lining made of high-quality ceramic fiber, reducing energy consumption by 50% compared to traditional systems.
- High-quality heating elements distributed evenly on three sides to ensure consistent temperature.
- Integrated floor stand for added stability and convenience.

Made in Italy
