

PROXXON MBS 240/E BANDSAW

Solid, ribbed die-cast aluminium housing (not a tubular or sheet metal construction). Double ball bearing aluminium pulleys. Sturdy, machined table with slot for mitre gauge as well as coolant trough. Table tilts through 45° for accurate mitre sawing. Low noise 220V motor (high quality, for quiet, prolonged use) with toothed belt. Electronically controlled speed for exceptionally accurate cutting (No subsequent finishing necessary). A table indicates the recommended speed for practically all materials. The blade size (5 x 0.4mm), is ideal for fine work, allowing cutting of small radii.

Technical data:

220 - 240V.
Blade speed adjustment from 180 to 330/min.
Throat 150mm, max height 85mm.
Table 200 x 200, tiltable to 45°.
One blade 1,065 x 0.4mm, 14TPI is included.
