

LORTONE QT12 ROTARY TUMBLER 220V

Perfect for moderate production or tumbling larger items, this mid-size tumbler can accommodate up to 12 pound loads with the same outstanding performance as the smaller tumblers. Designed for continuous shop operation, they feature our patented barrels with 10-sided interiors, leak-proof closures, overload protected motors, and rugged steel frames. Large capacity for high volume production. Single 12 lb. capacity barrel. Barrel's internal dimension: d. 170 x h. 180 mm.
