

THE SWEET & MENS DESIGN BOOK

Art Clay Club / AIDA developed Sweet and Men's Design (Unisex design) with Book, Material kit, and supplementary guidance to present an extra new design reference for the Art Clay certification course held worldwide.

Sweet Design: features more sophisticated Jewelry-look designs which many women can enjoy wearing any day.
 Men's Design (Unisex design): Features more dynamic expressions of what can be done in Silver. Recommended for men and women who like stylish design jewelry.

All 13 projects in each design book are designed with (or include) technical requirements as stated in the Check-off list of the Art Clay Club Japan standard instructor's certification curriculum.

Therefore, any Art Clay instructor can suggest students to choose their favorite project theme in each step from the following books. Now you have 52 different designs to choose from. If you count all combinations, it is almost limitless! Please recommend to your instructors to start thinking about new presentations using the new lineups.
