

PROFESSIONAL STAINLESS STEEL EXTRUDER SET DELUXE

The new Makin's Professional® Ultimate Extruder Set combines the next generation of the Makin's® patented screw-type extruder with 20 popular discs and 2 extra O-rings in a convenient and secure storage case. This stainless steel extruder incorporates an L-shaped handle with locking screw, ergonomic rotating handle and non-slip barrel grip. The storage case has a easily accessible resting place for the extruder, includes eight separators which can be used to create individual compartments to keep extruder accessories neatly organized.

The new Makin's Professional® Ultimate Extruder Set was designed specifically for the professional polymer clay enthusiasts and professionals working in the cake decorating and confectionary industries. This extruder is manufactured from commercial grade stainless steel which provides greater torque capacities, more comfort and control than any other similar extruder on the market today.
