

## FUSING MOLD - BIG CHINA SOUP BOWL 29 X 8,5 CM

This is a very special mould to make a medium size but fairly deep bowl. The result can be a simple piece or artwork as well as a utilitarian object in the dining area. Combine with China Soup Bowl - Small - 18x6cm - Fusing Mould 31012 & Breakfast Tray - Large - 38x23x2cm - Fusing Mould #31016.

Instead of cutting the glass round try a square piece instead. Fuse identical pieces from two contrasting colours. The steep angle of this mould will reveal the bottom colour around the edges.
