

## ALKEME BLANK - SWIRLY HEART 19 MM - 8 PCS

ImpressArt blanks are the canvas for your metal stamping projects and come in hundreds of shapes.

**Alkemé is a unique tin alloy, tarnish free and easy to stamp. Alkemé has a weight and gauge one would expect from a fine piece of jewellery. All Alkemé blanks are 1 mm thick. This provides enough metal material to allow the stamp to make a deep impression.**

**Alkemé can be easily polished with hand burnish, tumble or flexible shaft tool to get a high shine.**

**Alternately, using a fine abrasive you can achieve a nice matte finish.**

**Alkemé can be easily formed with a dapping block.**
