

CEMENT NIPPERS KENDO 225 MM

The Kendo 225 mm bricklayers' pincers are engineered for clean twisting and cutting of binding wire and nails on the job-site. Forged from durable chrome-vanadium steel and finished with ergonomic dual-material handles, they deliver excellent leverage, accuracy and user comfort for professional masons working long shifts day after day with reduced fatigue.

Key features

- Forged chrome-vanadium steel for durability
- Sharp cutting edges shear wire and nails
- Non-slip dual-material ergonomic handles
- Compact 225 mm length fits tight spaces
