

ITALFORNI MIKRO 5 MP KILN 272 LT 1100C

Italforni Mikro 5 MP Electric Ceramic KilnThe Mikro 5 MP is a professional electric kiln with a capacity of 272 liters, ideal for artisanal workshops and institutions with a large number of students and firings. Perfect for firing ceramic, porcelain, stoneware, and glazes up to 1100°C. This model includes an integrated floor stand for added stability and convenience.

Main features:

- 272-liter firing chamber made of high-quality refractory ceramic fiber.
- Digital temperature control via microprocessor.
- Ability to program up to 15 customized firing cycles.
- Each cycle can include up to 20 temperature and time stages.
- Real-time display of the active firing program.
- Automatic restart in case of power failure.
- Flag door with a viewing window to monitor the firing process.
- Internal lining made of ceramic fiber, reducing energy consumption by 50% compared to traditional systems.
- High-quality heating elements distributed on three sides to ensure uniform temperature.
- Integrated floor stand for added stability.

Made in Italy
