

BEAVERCRAFT SK4S - SPOON CARVING KNIFE OPEN CURVE

Open curve spoon knife is great for spoons, kuksa, bowls making. Hi-carbon steel thin double-bevel blade allows you to make easy and slight cuts deeper and deeper into the wood. So you are able to make smooth curves at your projects.

Key Features:

- Hi-carbon steel thin double bevel blade.
- You can cut with one hand atop the blade for enhanced control.
- Longer handle allows you to work either with one hand or with both hands.
- Sharpening the knife allows you to cut both soft and hard wood.
- handle made from oak and covered with natural linseed oil.
- Suitable for right-handed.
