

## CASTING MOLD - BEACH SHELL MEDIUM

This mold, ideal for fused glass casting applications, allows you to create the three shells approximately 60 mm long. They can be used alone or in combination with other marine subjects that can be made with other casting molds.

- Amount of frit needed: shell, 18 grams - spiral whelk, 10 grams and scallops, 32 grams.
- The mold measures 190 x 120 x 31 mm.
- A colder than normal firing temperature of about 700-710°C for glass with COE 96 and 10°C warmer for glass with COE 90 is recommended.
