

SUPERSTAR 2002 PRO HOT AIR GUN

SUPERSTAR PRO Hot Air Gun

The SUPERSTAR PRO hot air gun stands out due to its particular care in engineering design.

- 3-position working switch
- Ergonomic handle
- Double insulated motor with built-in safety thermostat and high-quality ceramic support resistance
- The outer structure is made of high-strength, thermal, abrasion, and weather-resistant synthetic material
- Support base for vertical positioning
- Comes with a shockproof carrying case (34x29x10 cm) for safe and convenient transportation
- German GS mark for electrical and mechanical safety
- CE marked and comes with an instruction manual in Italian

Technical specifications:

- Power: 1800W
- Voltage: 220-240V - 50Hz
- Temperature and air flow:
 - pos. 1:* 50°C @ 250 l/min
 - pos. 2:* 450°C @ 250 l/min
 - pos. 3:* 550°C @ 500 l/min
- Weight: 745 g
