

## CRICUT 5 IRON-ON PRINTABLE SHEETS FOR LIGHT-COLOURED FABRICS A4

Full-color heat transfer projects are easier than ever with this incredible heat transfer material. This Iron-On allows you to print your preferred design on it, just like with adhesive paper! No more complex layering or multiple sheets of heat transfer vinyl. Simply design your idea, print it in full color with your home inkjet printer, let your Cricut cutting machine accurately cut your design. Finally, transfer it onto a t-shirt, bag, home decor item, and more using a Cricut heat press or a household iron. **Instructions**

- Apply only to prewashed and completely dry materials
- Wait 48 hours after application before washing
- Wash inside out in cold water, hang to dry
- Do not bleach
- If ironing is necessary, iron only on the reverse side of the garment
- Do not iron the decoration

### Features

- 5 A4 sheets - 210 x 297 mm
- Create bright and colorful designs without layering
- Designed for transfers onto light fabrics
- Requires an inkjet printer
- Compatible with Cricut Maker® and Cricut Explore® machines, and Cricut Joy Xtra™
- For best results, transfer using the Cricut heat press
