

ARBORTECH MINI TURBO SET - WOOD CARVING DISC SET

The Arbortech Mini TURBO is a universal wood shaping blade that can be used to create different shapes, profiles and finishes in small to medium sized woodworking projects. Designed to provide the same functionality as the TURBOPlane with a smaller blade size, attached to a shaft to enable carving in hard to reach places. The Mini TURBO provides additional versatility with its ability to be transformed into an effective sanding tool.

Product Features

- Extended reach enables carving of deep internal profiles
- Leaves a smooth finish requiring minimal sanding
- Limited side exposure improves safety
- Perfect for free-formed convex and concave shapes
- Tungsten carbide teeth are rotatable and replaceable
- Can be used with guides and templates for accuracy
- Can be transformed into an effective sanding tool
- Attaches to standard 100mm (4") and 115mm (4 1/2") angle grinders
- Blade also fits on the Arbortech Mini Carver
- Works best with Power Carving Unit
