About Cobra Study

Cobra Study is a water-mixable oil paint that offers the same fantastic results as traditional oil paints, without having to use harmful solvents. Cobra Study is made with the same high-quality pigments, and yet, with Cobra Study you can paint at an affordable price. This is because we offer only a selected number of colours and use less pigments that are not as finely milled as those used in the Cobra Artist series. **Key Features**

- Can be mixed and cleaned with water.
- Created with high-quality pigments.
- Affordable alternative for the Cobra Artist series.
- Available in 40 semi-transparent, semi-opaque and opaque colours with the highest degree of lightfastness (+++).
- Cobra can be used in conjunction with traditional oils and when mixed at a ratio of Cobra 4:1, the mixture will retain its ability to be thinned and cleaned with water.
