

TRI-HONE SHARPENING SYSTEM FOR BLADES AND KNIVES

Introducing our versatile **Tri-Hone Sharpening System**, ideal for both leathercraft and wood carving tools. This professional sharpening system is equipped with **diamond and ceramic sharpening stones** and an integrated **pull-through knife sharpener**, perfect for maintaining various blades, knives, and specialized tools.

- **Innovative Design:** User-friendly with lift-and-turn stone adjustments, it easily handles everything from rough grinding to precise polishing.
- **Extend Tool Life:** Keep your tools sharp to save time and money with this efficient sharpening system.
- **Compact, Stable, and Safe:** The wide non-slip base ensures stability, while its compact design makes it easy to travel with.
- **Pull-Through Knife Sharpener:** Maintains the optimal blade angle with ease, ensuring perfect results every time.
- **Efficient Restoration:** The coarse 400# diamond stone repairs large gaps quickly for dependable tool restoration.
- **Sharpness Maintenance:** The 1000# diamond stone keeps blades sharp and ready for daily use.
- **Precision Polishing:** The fine 2000# ceramic stone restores a razor-sharp edge for high-precision results.
- **Size:** 265mm (10-7/16") x 105mm (4-1/8") x 75mm (3").

This sharpening system is **perfect for hobbyists and professionals** working in leathercraft, **sculpture**, and **wood carving**, offering reliable performance and extending the life of your tools.
