

TWISTCUT - ROTARY LEVER MOSAIC CHOPPING MACHINE

TWISTCUT - Professional Mosaic Chopping Machine The TWISTCUT mosaic chopping machine is a precision tool designed for professionals and hobbyists. Its sturdy steel construction ensures durability and stability, allowing for precise and efficient cuts on stone, tile, glass, and smalti. Ideal for mosaic projects of any scale.

- **Heavy-duty steel body** – Maximum stability and durability.
- **High-precision screw movement** – Provides controlled and effortless cutting.
- **Includes long-lasting HSS blades (28mm)** – Ideal for cutting stone and tiles. For glass or smalti cutting, we recommend purchasing the carbide blades 60082.
- **Max cutting thickness: 12mm** – Suitable for various materials.
- **5mm grid surface** – Ensures accurate tesserae alignment.
- **Angle guide markings** – Allows precise cutting of triangles, rhombuses, and corners.
- **Adjustable stop guide** – Ensures consistent tesserae sizes.

Perfect for mosaic artists, craftsmen, and hobbyists.
