

ACTIVATOR FOR INSTANT ADHESIVES SPRAY 200 ML

The CA PRO Activator is a professional spray that accelerates the curing of CA (cyanoacrylate) adhesives, ensuring fast and reliable bonding even in challenging conditions such as low temperatures, dry environments or less reactive materials. Suitable for use with Titebond Instant glues and other cyanoacrylate adhesives, it allows precise application on both small and large parts thanks to its dual application method.

Supplied in a practical and safe spray can. **Key features**

- Accelerates curing of CA (cyanoacrylate) adhesives
- Compatible with Titebond Instant glues
- Effective under unfavorable conditions
- Dual application method (small/large parts)
- Convenient spray packaging

Technical specifications

- Application: spray from 20–25 cm on clean, dry surfaces
- Application temperature: +10 °C / +30 °C
- Storage: +5 °C / +25 °C, cool, dry, dark place
- Shelf life: 1 year in unopened original packaging
- Contains acetone – extremely flammable aerosol

Instructions of usage

- Small parts: spray one surface and let dry, apply glue to the other and bond
- Large parts: apply glue, join parts and spray the joint
