

ETCHING PRESS WITH REDUCTION GEAR ABIG 17230 - WIDTH 300 MM

The Abig 17230 geared printing press, Made in Germany, is a professional machine designed for linocuts, woodcuts, etchings and intaglio printing. Its solid cast aluminium frame and 80 mm steel rollers ensure high, even pressure and consistent results. Suitable for artists, print studios and educational environments requiring precision, durability and smooth operation. **Key features**

- Planetary gearbox with 2.2:1 reduction ratio for easier handling
- Robust cast aluminium construction
- Top and bottom steel rollers Ø 80 mm
- Pressure adjustable on both sides via star handles
- Multiplex bed with screwed electrolytic galvanized steel plate

Technical specifications

- Compressive force: approx. 2,500 kg
- Surface pressure: approx. 2,500 kg
- Clearance height: approx. 24 mm (up to 40 mm possible)
- Roller width: 300 mm
- Ø top roller: 80 mm
- Ø bottom roller: 80 mm
- Table width: 300 mm
- Table length: 700 mm
- Maximum format: ≤ DIN A3
- Footprint: 36 cm x 46.5 cm
- Weight: approx. 25.5 kg
- Matching felt: 29 x 90 cm
