

## BEADY 22 - ELECTRIC KILN FOR GLASS BEADS

The Beady 22 Electric Kiln is a compact tabletop kiln designed for annealing lampworked glass beads, while also being suitable for small fusing, enamelling and decorative applications. Its door features a dedicated bead slot, and the supplied refractory plug allows the kiln to be used for other processes as well. Made in Italy with a stainless steel housing, it ensures durability and precision with the TC51 controller. **Key features**

- Designed for annealing lampworked glass beads
- Suitable for small fusing, enamelling and decoration work
- Door with slot for positioning glass beads
- Supplied with refractory plug for alternative uses
- TC51 controller for fully automatic firing management up to 9 cycles and 12 steps
- Compact stainless steel body with mirror finish

### Technical specifications

- Maximum operating temperature: 900°C
- Top infrared heating with heating element protected by quartz tubes
- Multilayer insulation and refractory brick chamber
- Internal chamber mm: W 220 D 240 H 160
- Overall dimensions mm: W 510 D 400 H 330
- Weight: 20 kg
- Power supply: 230 V
- Power consumption: 1.5 Kw
- Opening: drop-down door

SKU 63369

### SPECIFICHE

SKU	Computer type	Capacity	Max. Temp	Power	Voltage
63369	TC51	9	900°C	1,5 Kw	220 ~ 230 V - 50 HZ
