

## PROXXON SUPERCHARGER SC FAST CHARGER

The Proxxon SuperCharger SC is designed to unlock the full potential of Proxxon Li/TL3 Tabless batteries. Featuring high charging current, active cooling and intelligent temperature monitoring, it can recharge a battery from 0 to approximately 95% capacity in just 15 minutes. An ideal solution for professionals who require minimal downtime and maximum productivity from their cordless tools. **Key features**

- Ultra-fast charging for Proxxon Li/TL3 Tabless batteries
- Reaches approximately 95% capacity in 15 minutes
- Active cooling system during charging
- Intelligent temperature monitoring
- Minimizes downtime for cordless tools
- Prepared for wall mounting

### Technical specifications

- Brand: Proxxon
- Model: SuperCharger SC
- Input voltage: 230 V
- Frequency: 50/60 Hz
- Output voltage: 12.6 V
- Output current: 8 A
- Weight: 380 g
- Compatibility: Proxxon Li/TL3 Tabless batteries
- Not compatible with: Proxxon Li/A2 battery
- Installation: wall-mount ready housing
