

PROXXON LI/TL3 LITHIUM-ION BATTERY

The Proxxon Li/TL3 Tabless lithium-ion battery is designed to deliver maximum performance for energy-intensive cordless tools such as the Proxxon LHW/A long-neck grinder. Tabless cell technology supports higher charging currents, reduces heat generation and improves overall efficiency. When used with the Proxxon SuperCharger SC, the battery reaches approximately 95% of its capacity in around 15 minutes, minimizing downtime. **Key features**

- High-efficiency Tabless lithium-ion technology
- Designed for demanding high-power cordless tools
- Suitable for Proxxon LHW/A and other 10.8 V tools
- Supports high charging currents for rapid charging
- Reduced heat generation during charging and use
- Delayed thermal safety shutdown in case of overheating

Technical specifications

- Brand: Proxxon
- Model: Li/TL3 Tabless
- Battery technology: Tabless lithium-ion
- Voltage: 10.8 V
- Capacity: 3.0 Ah
- Length: 85 mm
- Weight: 180 g
- Charging performance: approx. 95% capacity in 15 minutes with SuperCharger SC
