

## RESIN COLOR MY PALETTE

My Palette resin colors are ideal for easily coloring any type of transparent resin. **Key features**

- Ideal for epoxy resins and transparent UV resins
- Transparent and intense coloring with very few drops
- To obtain an opaque color, simply add the My Palette colors to the 3D Color Art resin White color

### Instructions for use

- Add 1 or 2 drops of product to the resin
- Mix with a toothpick until a uniform color is obtained
- Do not add too much color: the resin may not cure properly

### Color / Size
