

MARABU PORCELAIN & GLASS GLOSSY - COLOURS FOR GLASS AND PORCELAIN

Brilliant water-based paint for porcelain and glass. Ideal for painting porcelain, ceramics, glass, and plexiglass. The paint is easily mixable and provides vibrant and intense colors. Before using, shake well, avoiding shaking vigorously (to prevent the formation of air bubbles). **Key Features**

- Glossy finish
- Dishwasher safe without baking (max 50 °C)
- Easy to use: paint, let it dry, done!
- Water-based, odorless, and light-resistant
- Can be used in different ways: painting, stamping, stenciling
- Great to combine with Marabu Porcelain & Glass Painter markers (firing: 160 °C/30 min.)
- All colors can be mixed together
- For porcelain, ceramics, glass, and plexiglass

Instructions for Use:

- Clean the porcelain or glass surface thoroughly with detergent or alcohol to remove dust and grease. Rinse off any detergent residue before painting.
- Shake the paint well before use, avoiding vigorous shaking (to prevent the formation of air bubbles).
- Paint the surface as desired.
- The paint will be dry to the touch after 30 minutes and dishwasher resistant after 3 days of drying (without baking). We recommend washing painted porcelain and glass in the glass and cup cycle at a maximum of 50 °C.
- If using Porcelain & Glass in combination with Porcelain & Glass Painter markers, firing (160 °C/30 min.) is also possible after drying.
