

## GLASS CUTTING TABLE WITH SQUARE 590X840 MM

**Glass Cutter with Bridge and Professional Table** - Ideal tool for glaziers, craftsmen, and hobbyists to achieve **precise and repeatable cuts** on glass. Sturdy structure and **linear bearing guide system** for smooth movement.

- **Optimal precision:** cutting head on bridge with linear bearings
- **Angle adjustment:** graduated angle ruler (0°-90°)
- **Compatible with 2-6 mm glass:** adjustable head
- **Tungsten carbide cutting wheel:** VISCOR HM 135° Ø5.0×1.0×Ø1,30 mm
- **Durable structure:** wear-resistant materials
- **Cut opening system:** an integrated lever raises a button on the cutting surface. After scoring the glass, placing the cut line over this button and applying gentle pressure allows for a clean and controlled separation.
- **Three available sizes:** 295x420 mm, 420x590 mm, 590x840 mm

### Why choose it?

- Easy to use for professionals and hobbyists
- High efficiency to minimize waste
- Versatile for glass workshops, artistic studios, and carpentries
- Guaranteed safety for simple and effective work
