

SIO-2 - LAGOON TURQUOISE PORCELAIN CLAY

SIO-2 Lagoon: porcelain that reveals stunning turquoise tones at every firing!

With high plasticity, SIO-2 Lagoon is ideal for wheel-throwing and modelling. It offers a stable firing range (1200–1240°C), excellent for artistic ceramics and food-safe tableware (ISO 6486). Carbonate-free and presented in 5 kg extruded blocks.

Main Features

- Beautiful turquoise color range
- High plasticity (IP 11)
- Water absorption: 0% at 1240°C
- Shrinkage at 1240°C: 10.6%
- Fired bending strength: 46.3 N/mm²

Benefits for you

- Smooth, vibrant surface
- Perfect for artistic and functional ware
- Stable performance in oxidizing atmosphere
- 5 kg extruded format in carton box

Get inspired by the ocean tones of SIO-2 Lagoon – try it now!

***Important advice:** Recommended firing range (1200–1240°C) ensures optimal technical and visual results. Samples may show effects obtained outside this range under controlled conditions.*
