

PRECIOSA SQUARE SYNTHETIC GEM - ZIRCON

PRECIOSA synthetic stone in Zircon (clear) color with square shape and Princess cut, designed for professional artisans and goldsmiths. Rooted in Bohemian glassmaking tradition dating back to 1548, it combines precise geometry, outstanding brilliance and technical reliability. The Princess cut, featuring sharp 90° corners and a high number of facets, delivers intense and spectacular light reflection. In addition to Art Clay Silver and Metal Clay, it is suitable for traditional jewelry techniques such as stone setting, lost-wax casting, soldering and cold assembly. Compatible with kiln firing, it ensures stability and professional results. **Key features**

- Clear zircon color with exceptional brilliance
- Square shape with high-refraction Princess cut
- Cost-effective alternative to diamond
- Suitable for Metal Clay, Art Clay and traditional jewelry techniques

Technical specifications

- Type: synthetic stone
- Brand: Preciosa
- Color: Zircon (clear)
- Shape: square
- Cut: Princess
