

## PRECIOSA SQUARE SYNTHETIC GEM - ORANGE

PRECIOSA synthetic stone in Orange color with square shape and Princess cut, designed for professional artisans and goldsmiths. Rooted in Bohemian glassmaking tradition dating back to 1548, it combines precise geometry, decorative brilliance and technical reliability. The Princess cut, featuring sharp 90° corners and a high number of facets, delivers intense and even light reflection, enhancing the vivid orange tone. In addition to Art Clay Silver and Metal Clay, it is suitable for traditional jewelry techniques such as stone setting, lost-wax casting, soldering and cold assembly. Compatible with kiln firing, it ensures stability and professional results. **Key features**

- Bright orange color with strong decorative impact
- Square shape with high-refraction Princess cut
- Cost-effective alternative to colored diamonds
- Suitable for Metal Clay, Art Clay and traditional jewelry techniques

### Technical specifications

- Type: synthetic stone
- Brand: Preciosa
- Color: Orange
