

ROUND BIRTHSTONES NATURAL STONES

Natural round-cut gemstones traditionally associated with birth months, commonly known as Birthstones. Each month is linked to a specific gemstone, selected over time for its color, rarity and symbolic meaning. Long used in jewelry as a personal and meaningful gift, birthstones allow the creation of unique pieces connected to a birth date or a special moment. As natural gemstones, they are not suitable for firing with Art Clay Silver or Metal Clay and must be cold set after the jewelry piece is completed. **Key features**
