

HARDWOOD SPATULAS FOR POTTERY WHEEL THROWING

Hardwood spatulas designed for wheel throwing and shaping clay, ideal for smoothing, compressing and refining surfaces during rotation. The wooden material ensures gentle contact without scratching the clay, while the drilled hole improves grip and handling control. Suitable for potters, students and schools, these tools offer durability, simplicity and reliability for everyday studio use. **Key features**

- Made from durable hardwood
- Ideal for pottery wheel work
- Gentle contact with clay surfaces
- Grip hole for better handling
- Suitable for educational and professional use

Technical specifications

- Material: hardwood
- Use: clay shaping and finishing on the wheel
- Handle: drilled grip hole
