

ROUND STEEL TUBE

This round iron tube offers reliable strength and dimensional clarity, with sizes specified as diameter x thickness x length. Ideal for structural frameworks, art installations, and DIY projects, its solid iron construction provides excellent load-bearing capacity, weldability, and paint adhesion, while the simple circular profile ensures easy cutting, joining and finishing. **Key features**

- High structural strength and durability
- Clear sizing: diameter x thickness x length
- Excellent weldability and machinability
- Good adhesion for paints and coatings
- Versatile for art, construction and DIY projects

Technical specifications

- Material: iron
- Shape: round tube
- Measurements: diameter x thickness x length (as specified)
- Suitable for welding, cutting and finishing

SKU F008096

SPECIFICHE

SKU	Size
55959	Ø 8 x 1 x 1000 mm
55960	Ø 10 x 1 x 1000 mm
55961	Ø 12 x 1,2 x 1000 mm
55962	Ø 16 x 1,5 x 1000 mm
55963	Ø 20 x 1,5 x 1000 mm
55964	Ø 25 x 1,5 x 1000 mm
55965	Ø 30 x 1,5 x 1000 mm
