

PUTTY KNIFE WITH WOODEN HANDLE IDEAL STAR

The Ideal Star putty knife features a carbon-steel blade and a natural wooden handle, delivering durable performance for plastering, filling and smoothing tasks; the robust blade resists bending and maintains edge, while the wooden grip provides comfortable, non-slip handling and reduces hand fatigue; available in multiple sizes to suit different jobs. **Key features**

- Durable carbon-steel blade for long-lasting performance
- Natural wooden handle ensures comfortable, ergonomic grip
- Perfect for plastering, putty application and smoothing
- Available in multiple sizes to match various tasks
- Easy to clean and maintain

Technical specifications

- Blade material: carbon steel
