

SIEVE FOR GLAZES AND POWDERS

Sieve with plastic rim, ideal for powders and glazes in ceramic and artistic applications. The fine 330 mesh allows accurate sifting, helping achieve more even mixtures and remove coarse impurities. Lightweight and easy to handle, it is suitable for both studio use and hobby work, and is available in two diameters to suit different working needs. **Key features**

- Ideal for powders and glazes
- Lightweight and practical plastic rim
- Fine 330 mesh for accurate sifting
- Suitable for ceramic and artistic use
- Available in two sizes
